

Product Disclaimer for Contractor Installation of Hardware for DIY Home Security Systems*, Surveillance Camera Systems**, and Audio Systems***

Important Notice: Please read this disclaimer carefully before proceeding with the installation of your home security, surveillance camera, or audio system.

1. **Description of the Service:** CommTech Installations LLC provides professional installation services for DIY home security systems, surveillance camera systems, and audio systems. Our team of trained contractors will install and set up the security, surveillance, or audio system **you** have purchased.
2. **Installation and Usage:** The installation of a DIY home security system, surveillance camera system, or audio system involves the placement of sensors, cameras, alarms, speakers, sound bars and other devices to enhance your home's respective system. It is essential to follow the instructions provided by our contractors during the installation process to ensure the system functions correctly.
3. **No Guarantees:** While we strive to provide the best possible service, we **do not** guarantee that the DIY security system, and/or surveillance camera system will prevent all security breaches or incidents; nor do we guarantee the functionality of the audio system. Furthermore, we **do not** guarantee the functionality of any mobile applications associated with each respective system (security, surveillance, or audio). The effectiveness of each respective system may depend on various factors, including user settings, manufacturer quality and external circumstances.
4. **Limited Liability:** CommTech Installations LLC shall not be held liable for any losses, damages, or injuries that may occur as a result of the installation or use of the DIY home security system, surveillance camera system, or audio system. Users are responsible for the proper use, maintenance, and monitoring of the system to maximize its effectiveness.
5. **User Responsibilities:** It is the responsibility of the homeowner or user to:
 - Ensure that the DIY security system and/or surveillance camera system is used in compliance with local laws and regulations.
 - Regularly test and maintain the system to ensure its functionality.
 - Contact the appropriate authorities in the event of an emergency or security breach.
 - Keep user codes and passwords confidential and update them as needed.
6. **Product Warranty:** Any warranties or guarantees provided by the manufacturer of the DIY security system, surveillance camera system, or audio system are separate from the installation services offered by CommTech Installations LLC. Customers should refer to the manufacturer's warranty for details on product coverage and support.

7. **Service Modifications:** CommTech Installations LLC reserves the right to modify or discontinue installation services, update pricing, or make changes to this disclaimer at any time. Customers will be notified of any significant changes.
8. **Contact Information:** For questions or concerns, call 248-962-3058

Please Note:

*DIY Security/Alarm Hardware may include contact sensors for doors & windows, motion detectors, glass break detectors, flood sensors, key fobs, panic devices, key pads, base stations, Smoke/CO detectors, range extenders, & sirens.
